Getting Behind the Groove.

Launching the first of their collectors edition vinyl series, Behind the Groove branches out from its digital platform to embark on a programme of releases from the iconic pioneer producers of House Music. Held in high esteem for their high quality features and mixes that continue to explore, celebrate and venerate the contributions of highly respected, scene-shaping labels, artists, DJs and special events, BTG seek to put in front of the wider community, the stories surrounding the pivotal role they played in the past and continue to play today in shaping the underground music scene we have come to know and love.

Alex Rose (BTG Founder)... "I've been on record collecting adventure since I was around 14, DJ'd since the mid 90's on and off and dabbled in production here and there along the way. But the reality is that at heart, i'm just a passionate digger who is hungry to collect and ultimately learn about the back stories, locked up in my studio full of cardboard sleeves and black discs and unearth the untold stories.... Behind the Groove"
